BENEFITS OF TREES

Environmental

Clean air

Captures air pollution

Carbon storage

Cooling and shading

Wind abatement

Reduced stormwater flows

Improved stormwater quality

Ecological

Biodiversity

Habitat and food for fauna

Water cycling

Soil nutrient cycling

Other ecosystem services

Economic

Increased property prices

Eco-tourism

Energy savings

Job creation

Community & Culture

Cultural heritage

Connection to country

Social connection and cohesion

Sense of place

Traffic calming

Health & Wellbeing

Improved mental health

Increased physical activity

Shade and comfort
